I would like to schedule a few minutes to discuss next steps on the South Carolina Water Withdrawal Rule and the 4C listings. (I grabbed an hour, but not likely to take that long.) It has now been 5 months (August 29th, 2017) since we met with the State and they have not really responded to us officially. When we left that meeting, we asked them to look at how their WQS addressed issues where water quantity affected water quantity and if they'd consider a flow WQS. We asked them how they planned to address water bodies that the NGOs submitted as impaired for Hydro Alt. We put together a fair bit of materials for them to look at and asked them to evaluate the material and meet with us again to discuss. American Rivers called Friday to ask for updates and has emailed the state, so a good time to reconvene.
